

First Business Lunch in Stuttgart

The location for the first TRANSEARCH Business Lunch in Stuttgart on the 25th of April was well chosen. It took place on the top level of the Stuttgarter Bahnhofsturm next to the main station, a location that guarantees a fantastic view of the city of Stuttgart and its surroundings.

The event turned out to be very successful, not only was it a chance for the approximately 30 Executives to network and socialise with other Decision Makers, they also enjoyed the unstrained atmosphere. A perfect platform for exchange, new contacts and stimulating chats, was the common response of the guests, combined with the wish to repeat an event like the Business Lunch soon. They also asked for a list of all participants to uphold the new contacts. Because of the great success of the first Business Lunch in Stuttgart and the enthusiasm of the guests TRANSEARCH plans to organise more similar events in the future.
